

ALBERT SWEET AND HIS White Hussars

A singing band, brilliantly uniformed and trained to the minute. Probably the most famous of the Ralph Dunbar musical organizations.

On four transcontinental campaigns this noted company has captured American audiences with the enthusiasm of their military music. New York: "The Hussars, immaculately groomed, play well and sing well."

Chicago: "They played Sousa's music just as though Sousa was there to direct it."

Philadelphia: "They made a splendid appearance and were enjoyed time after time."

Cincinnati: "Voices were good, instrumental music was good and in all respects the company was all to the good."

Louisville: "If you think you have heard hand music hear the Hussars. They are particularly satisfying and make a fine appearance."

AFTER HEARING THEM ON THE

Last Day of the Chautauqua

YOU WILL SAY THAT THESE COMMENTS DON'T BEGIN TO EMPHATICALLY YOUR ENTHUSIASM FOR THE WHITE HUSSARS. IF YOU HAVE A HAT THE HUSSARS WILL MAKE YOU THROW IT INTO THE AIR. SO THROW IT INTO THE AIR. SO THROW IT INTO THE AIR.

Admission 50 Cents (Afternoon or evening) or by season ticket.

We hold our customers from year to year by never disappointing them—by giving them always the real service to which they are entitled.

Our mechanics are experts. Our merchandise department is stocked with fuel, lubricants, parts, accessories, tubes and casings—all of which have been chosen on a net quality basis.

High profits have no attractions for us because we know that high profits identify a kind of goods that mean future loss of business.

We are especially proud of our Goodyear line of tires, tubes and accessories. We feel that supplying these for our customers constitutes a valuable part of our real service.

May we serve you, too?

TIME TO PLANT ENDIVE

Now is a good time to plant endive. The seeds sown for the fall crop are commonly sown in rows twelve inches apart and the plants are thinned to eight to ten inches apart. Cultivation should be frequent, but must be discontinued when the plants become well developed.

The practice of blanching is one distinctive difference in culture between this crop and lettuce. To blanch the plants, tie up or otherwise protect the inner leaves from sunlight. For the late crop the plants may be pulled and the leaves folded in and then closely packed in a single layer on a mulch of straw spread out on a well drained spot in the field. They are then covered with boards in such way as to prevent pressure on the plants and are covered with soil to retain moisture and exclude the cold of late autumn and early winter. When handled this way the plants blanch out well and may be kept on hand for a considerable period.

"WINCHESTERS"

The fighting equipment of Uncle Sam was augmented by the enlistment of two "Winchesters" who joined the U. S. Marines today. This name will be added to the roster along with Remington, Colt, Mauser, Savage, Stephens, Martin, Smith and Wesson, and other potential sharpshooters who recently joined the "Soldiers of the Sea."

Almost every firearm and rifle manufactured is represented by a nameplate in the Marine Corps. Oddly enough, "Springfield" the rifle which which the U. S. military forces are equipped has, as yet, no nameplate in the ranks of the fighting sea-soldiers.
